

Questions for group G23 - Snowledge

4.2.2026

From group member: Aki Karppinen (H151868)

- What went well ? (What we did well ?)
 - We got more contacts to new people.
 - I learned more to groupworking than my early life.
 - We began to do the final document enough early.
- What went less well ? (What did not went well ?)
 - We didn't perhaps yet use enough much time to this work in the beginning of course. We was a little bit late.
- What do we want to try next ? (Improvements ?)
 - We try to get those later groups codes to observe, check, repair and advantage them.
- What puzzles us ? (Any obstacles or problems in sight ?).
 - Very big problem to continue for me if we would not get enough early that "bottom code" to our own repulsories.

Project_Status: 3

- [1] Sufficient, 1, in Finnish välttävästi
- [2] Satisfactory, 2, in Finnish tyydyttävästi
- [3] Good, 3, in Finnish hyvin
- [4] Very good, 4, in Finnish kiitettävästi
- [5] Excellent, 5, in Finnish erinomaisesti.

The personal comments for other members:

- Xuan Loc Mai: He really joined our group enough early and filled the place of Ville Huotari, who was too hurry to get easily 5 grade with this group. But nothing against him.
- Wahaj Anwar: He answered my email to join the group immediately and we were able to continue this course because of him.
- Amal Mathew: She also answered my invite. She is very important to this group...
- Tin Nguyen: He had difficulties getting time to join the coach meeting, but it was a lucky thing for me, because I did not have the microphone before Friday evening.
- Hoang Le: Quite silent man but perhaps very talented.
- Sofia Hiltunen: She really saved us to continue this work. She began to do our final document enough early. She has done until this week most length time for this work. I am planning to use quite much time also especially for programming but let it happen.
